- Vision
- Life
- Disability
- Legal Plans

Letting the Confusion Overwhelm You:

There are hundreds of different plans to choose from. I can help you sort out the plan that is best for you. I'm paid by the insurance company when you enroll, **so the help I provide to you is absolutely free!**

Going It Alone:

Another good reason to have me work with you is that **I can advocate for you during the enrollment and claim process if needed.** It's just one more way I provide exceptional service to my clients.

Signing Up with a Less-Than-Reputable Company:

As with every industry, **some companies are better than others.** **I'll help you find the companies that rank the best** in paying claims and taking care of their customers.

Paying More Than You Need To:

The way you structure the plan can make a big impact on the cost of coverage. For example, at times you can save by putting everyone on the same policy where at other times, it's more cost effective to put each person on an individual policy. This is especially important if there is an age difference between the key policy holders. **Let me show you how structuring your policy can save you money.**

Not Getting the Coverage You Want:

Looking for coverage on alternative care? **I can help you find coverage that is tailored to your specific needs and lifestyle.**

**Get a FREE QUOTE today by
calling (503) 789-7217.**
